

DFMD

RMC-18C-111-076

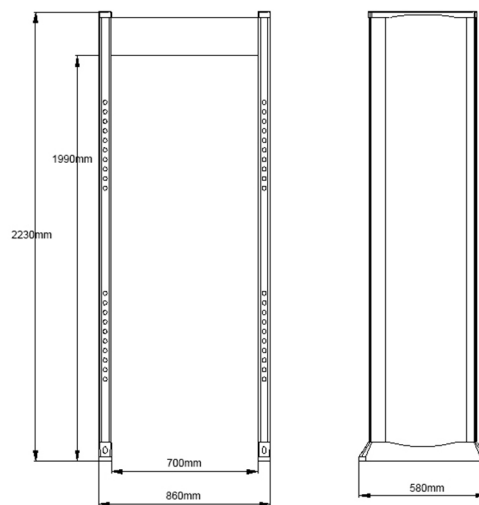

The Ravel Movement Control's walk-through Metal Detector is simple, elegant and thoughtfully designed to address scanning of people for metal objects being carried in their person. These are extremely important these days to ensure un-authorized metal objects are not carried into or out a facility. It could be deployed to scan people entering a Mall or a Hotel.

Sophisticated models are available for facilities & applications that require a very high degree of precision and for deployment outdoor as well.

Ravel Movement Control has taken enough and more care to offer a product that is safe for all types of pedestrians and are manufactured under stringent environment of quality with eye for great detail.

(All dimensions are in mm)

DFMD

RMC-18C-111-076

DESCRIPTION	PARTICULAR
Make	Ravel Movement Control
Model	RMC-18C-111-076
Material Of Construction	High density wood + PVC
Application	Indoor
No of Zones	6/12/18 Zones
Type	Multi Zone
Housing Material Thickness	9mm
Housing External Dimension (in mm)	2200 H X 800 W X 580 D
Housing Internal Dimension (in mm)	2010 H X 700 W X 500 D
Passage or Aisle width	700mm
No of Infrared Sensors	2 Pair
Location of Infrared Sensors	In middle of door panels
Sensitivity Levels	0-255 Levels
Working Frequency	4KHz to 8KHz
Camera	2 Infrared Cameras, One for Entry & Other for Exit
Monitor	7" LCD coloured with IR Remote Control
Resolution	1280 X 720
Operation Power	220V±10%
Memory	Supports 128GB removeable SD card
Power Consumption	<35W
Absorbed Current	1A
Password Protection	Yes
Password Recovery	Yes
Interference Suppression	Digital filtering by signal processor and several operating frequencies to suppress local electrical noise.
Network Connections	Remoter Security Monitoring System Compatible (RS422 & Ethernet)
Working Temperature	-20°C to +50°C
IP Rating	IP43
Noise during Operation	Less than 60 dB
Weight of the Product	60 KG
